DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, 24, 25 and 26-28, in part, drawn to use of Hsp70 to produce a pharmaceutical preparation, a method for ex vivo activation of NK cell comprising the administration of said preparation, and a pharmaceutical preparation comprising Hsp70.

Group II, claim(s) 18-23, 29, 30 and 26-28, in part, drawn to a method for the in vivo activation of the immune system comprising the administration of activated NK cells and use of the activated NK cells in the therapy of tumors or infectious diseases.

2. A national stage application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept. If multiple products, processes of manufacture or uses are claimed, the first invention of the category first mentioned in the claims of the application will be considered as the main invention in the claims, see PCT article 17(3) (a) and 1.476 (c), 37 C.F.R. 1.475(d). Group I will be the main invention. After that, all other products and methods will be broken out as separate groups (see 37 CFR 1.475(d).)

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
